What has been going on in Ms. Yucuis' Class?

What a GREAT author visit! Tom Watson, the author of the Stick Dog series, came to visit Palos East yesterday. The kids were so engaged and inspired. He taught them how to draw the different characters in his book.

Upcoming Events/Due Dates

- PARCC Reading for 3rd grade is March 15th-17th.
- PARCC Math for 3rd grade is March 27th-30th
- No school Monday March 6th.

Reminders:

- Please make sure your child has working headphones before the PARCC dates.
- There will be fun activities planned after each test. A note will go home closer to PARCC explaining these activities and will specify if the kids need to bring anything from home.

What are we doing for reading, writing, math, and science?

Reading

We are currently on Unit 3.3 which is all about space and nonfiction texts. Kids can continue to research about planets at home by going to Pebble Go.

Math

My class will be starting our next unit which will focus on comparing fractions and equivalent fractions. I will create assignments in Prodigy that align with these skills.

Science

We will finish up our unit on Fossils on Tuesday. Our next unit will be about Objects and Motion. It includes a lot of hands on activities for the kids which I know they will love!

Writing

Wow! What amazing writers I have! The Young Author's stories turned out great! It will be very hard to decide who will be our classroom winners. Thank you for helping with the typing!

Enjoy your three day weekend!
