### Language Arts

We are still working on unit 5 in our Wonders reading series. The vocabulary concepts covered in this unit are suffixes, idioms, synonyms, homophones, and multiple-meaning words. The comprehension strategies in this unit are to summarize our reading and work on making, confirming, and revising our predictions.

### Cursive

The children LOVE working with their cursive packets. They cheer when it is time to work on cursive writing! Once we have worked on each letter, the children will practice writing their names in cursive. They can't wait for this!

### Math

We are finishing our unit on measurement. In this unit we worked on estimating and measuring length. The different units of length we explored were inches, feet, yards, meters and centimeters. Our unit test will be next week. The next unit we will be working on will be geometry.

### Science/Social Studies

We will continue or daily oral geography until the end of the school year. We will also continue learning about plants
